Testing make-ups will occur throughout each month. Please do your best to ensure students are in school on testing days unless they are sick.

**We are so proud of the work all our students and teachers have done this school year. We have seen tremendous student growth in reading and math across all grade levels. We believe students should view testing as a chance to brag about all they have learned. Talk to your child about the importance of trying your best on tests and how they can help to inform the student, families, and teachers about the educational strengths and areas of potential growth.**

**We appreciate your support!**
